

Coverage		About the company																							
<p>Web Services Business Process Execution Language (WS-BPEL) is the accepted standard for modeling executable business processes. WS-BPEL is a key standard in the area of Business Process Management (BPM) and Service Oriented Architecture (SOA) - new paradigms for developing enterprise solutions.</p> <p>The two day workshop covers basic process concepts, introduction to web services followed by detailed discussions on the rich syntax and semantics of BPEL language combined with real life examples and interactive hands-on exercises that supplement the learning process. It is all about sensitizing the participants to business / process oriented thinking, abstract programming concepts and combining them to help develop executable process models. Participants develop skills to model real life business scenarios as WS-BPEL processes and web services.</p>		<p>ProKosha Systems Private Limited (proKosha), a company incubated by Merit Systems Private Limited (MERIT), has a vision to develop software products that enhance business performance. With focus on the development of cutting edge software products, we have launched a series of products in the areas of Business Event Monitoring (BEM) and Business Process Management (BPM). These products are engineered to suit the industry's needs for cost effective, pragmatic solutions. Over time, the company has been successful in gaining entry into some of the best corporations in India. The company has strong relationship with all its major customers and enjoys tremendous goodwill owing to its customer centric philosophy.</p>																							
Target Audience		<p>ProKosha brings the power of Business Process Management to organizations that constantly face the challenge of managing multiple process silos. It empowers business owners to automate business processes and align them with IT services making the enterprise more agile. Being a content-driven solution, it allows organizations to leverage existing IT investments by interconnecting various departments, systems, processes and people.</p>																							
<p>Business Analysts, System Analysts, Tech Leads, Project Leads, Senior Programmers and similar roles. Exploit the new learning, as team member involved in:</p> <ul style="list-style-type: none"> Business process consulting Business process implementation Process-centric Enterprise solution Enterprise Application Integration <p>Professionals playing or intending to play business/customer facing roles with exposure to fundamental programming concepts and web service concepts</p>																									
Benefits to participants		Contact																							
<p>Participants would benefit by learning how to:</p> <ul style="list-style-type: none"> Combine and Transform process oriented thinking and BPEL concepts to create executable business processes Leverage and design process centric software around the new paradigm <p>The workshop will be handled by experts who have developed BPEL based software suite. To derive maximum benefit from the hands on exercises, participants are requested to get their own laptops.</p>		<p>ProKosha Systems Private Limited #55/C, 42/1, 40th Cross, Jayanagar 8th Block Bangalore-560070, India.
